Clear Passage.

 BENETEAU

## The Beneteau 373 With Patented Pivoting Wheel.

*It's a first for the sailing industry. A pivoting wheel that easily allows you to rotate it from steering position into alignment with the boat's centerline - all to allow you and your crew clear access through the cockpit from transom to companionway.*

*Innovative? Certainly. Expected? Maybe not on other boats, but that's why Beneteau is the world's leading manufacturer of sailboats. Every Beneteau is a brilliant combination of innovation, style, performance and value.*

*And no other sailboat illustrates this beautiful blend more than the 373, designed by Berret/Racoupeau. Full of light and steady through the course, the Beneteau 373 is the perfect yacht for those who want to travel across oceans or just across the bay to a comfortable gunk hole.*

BENETEAU 373

## Strength From Within. Beauty Throughout.

*Your first impression of her will move you to want to see more of her. A closer look will reveal all that has made her the choice of the Cruising World judges as their Boat of the Year in her class.*

*Built to take what the sea demands, the Beneteau 373 has a hull-to-deck construction that is built with a century strong tradition of dependability and safety. In fact, Beneteau sailboats have logged over five million miles without a single recorded structural hull failure.*

*But her strength extends far beyond the hull. On decks, you'll find high grade Lewmar® marine hardware and specially cut Neil Pryde® sails. A cockpit and deck design that is inspired by sailors and designed by the best naval architects.*

## An Interior That Is All Beneteau.

*Below decks, the Beneteau 373 boasts the fine joinery and exquisite woodwork that have become Beneteau hallmarks. The salon is illuminated with natural light through large, panoramic windows. Storage is readily available throughout the interior. The galley is well-equipped for the most demanding of chefs. But perhaps the most luxurious amenity is found in the head: a separate stall shower.*

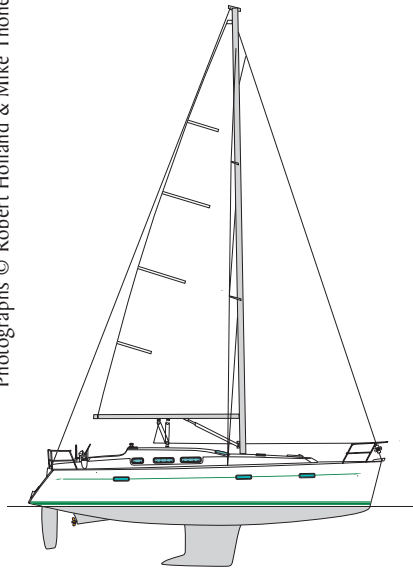

*From the hull up, the Beneteau 373, available with two cabins, is one of the finest yachts in her class. All at an incredible value that only the world's leading manufacturer of sailboats could offer. To learn more, contact your Beneteau Dealer today.
